Vysvetlivky

- Ukazovanie dôb v rámci kruhu

- Tlesknutie na určitej dobe a polohe v kruhu

V tejto piesni cvičíme pulzáciu a metrum. Vďaka kruhovému znázorneniu deti ľahšie pochopia kedy začína a končí takt.
Tiež zvládnu striedať základné rytmické dĺžky. Začíname postupne od najväčšej po najmenšiu: Celá ⟶ osminová.
V poslednej slohe máme dvojnásobné spomalenie, čo po precítení nie je problém vysvetliť.
Pre viac info o kruhoch, odporúčam **metodicú príručku od Mgr. art. Tomáša Boroša, PhD., ArtD. „Alphabet”.**

Prajem príjemnú zábavu!
